Subject J & W Pallet - PA on hold

Greetings,

I have been working with Susan and Karen to get a quick Preliminary Assessment done here due to a prospective purchaser interested in this property. However, in CERCLIS, I just found out that this site is designated as a "Removal only-no site assessment needed" under the Non-NPL status. There is no discovery date. Since there is no discovery date, the site would not require a PA.

While I recognize that this is a very simple removal site with little or no release to soils surrounding the storage building, I am confused since I thought that designation of "removal only..." was for sites that were PRP-lead removals where no release had occurred or was fully taken care of during the removal. I understand that this one is being done using fund money, which is why it's not finished yet while waiting for additional funding.

Susan, I don't want to waste the \$\$, if it doesn't need to be done. Until I hear from you guys, I'm putting the PA on hold.

Thanks,
Carolyn
